***THIS ITEM WAS HELD IN ABEYANCE FROM THE MAY 6, 2009 CITY COUNCIL MEETING AT THE REQUEST OF COUNCILWOMAN TARKANIAN.***

**\*\* CONDITIONS \*\***

The Planning Commission (6-0 vote) and staff recommend DENIAL.

**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This is a request to Amend a portion of the Southeast Sector of the General Plan from SC (Service Commercial) to GC (General Commercial) on 0.35 acres at 4201 West Charleston Boulevard. An associated Special Use Permit (SUP-30693) has been submitted with this request to allow an Auto Repair Garage, Major on the subject site.

The proposed Amendment to a GC (General Commercial) Land Use designation is not compatible with the existing SC (Service Commercial) properties that surround the subject site. Due to the increase in intensity of land use and incompatibility with the surrounding land uses this request would create, staff recommends denial of this request.

The subject site is within the 175-foot contour limitation and the proposed land use designation will not alter the building height. The existing building does not violate the height limitations.*

## ANALYSIS

- **SC (Service Commercial) Master Plan Land Use Designation**

The (SC) Service Commercial category allows low to medium intensity retail, office, or other commercial uses that serve primarily local area patrons, and that do not include more intense general commercial characteristics. Examples include neighborhood shopping centers, theaters, and other places of public assembly and public and semi-public uses. This category also includes offices either singly or grouped as office centers with professional and business services. The (SC) Service Commercial category may also allow mixed-use development with a residential component where appropriate. The existing SC (Service Commercial) General Plan designation restricts the land uses to that of ones allowable within compatible zoning districts. In this example, the site is limited to uses that are permitted within a C-1 (Limited Commercial) zoning district. As such, a proposed use like an Auto Repair Garage, Major, would not be permitted as they are prohibited within a C-1 (Limited Commercial) zoning district.

- **GC (General Commercial) Master Plan Land Use Designation**

The (GC) General Commercial category generally allows retail, service, wholesale, office and other general business uses of a more intense commercial character. These uses may include outdoor storage or display of products or parts, noise, lighting or other characteristics not generally considered compatible with adjoining residential areas without significant transition. Examples include new and used car sales, recreational vehicle and boat sales, car body and engine repair shops, mortuaries, and other highway uses as hotels, motels, apartment hotels and similar uses. The (GC) General Commercial category allows (SC) Service Commercial uses, and may also allow mixed-use development with a residential component where appropriate.

The applicant is proposing to amend the current SC (Service Commercial) Master Plan Land Use designation to the GC (General Commercial) Master Plan Land Use designation in efforts to allow for a more intense commercial use of the subject property.

This amendment was submitted in conjunction with a request for a Special Use Permit (SUP-30693) to allow an Automotive Repair Garage, Major on the subject site. The GC (General Commercial) designation is not compatible with the surrounding SC (Service Commercial) land use designations in the area, as the subject site would be the only parcel designated GC (General Commercial) within the Charleston Boulevard commercial corridor from Valley View Boulevard to Decatur Boulevard. Therefore, staff recommends denial of this General Plan Amendment request.

## **FINDINGS**

Section 19.18.030.I of the Las Vegas Zoning Code requires that the following conditions be met in order to justify a General Plan Amendment:

1. The density and intensity of the proposed General Plan Amendment is compatible with the existing adjacent land use designations,
2. The zoning designations allowed by the proposed amendment will be compatible with the existing adjacent land uses or zoning districts,
3. There are adequate transportation, recreation, utility, and other facilities to accommodate the uses and densities permitted by the proposed General Plan Amendment; and
4. The proposed amendment conforms to other applicable adopted plans and policies that include approved neighborhood plans.

### **In regard to “1”:**

The proposed GC (General Commercial) Land Use designation on a parcel currently designated as SC (Service Commercial) is not compatible with the existing SC (Service Commercial) properties that surround the subject site. Due to the increase in the allowed intensity of land use and the subsequent incompatibility with the surrounding land uses, staff recommends denial of this request.

### **In regard to “2”:**

The subject site has an existing zoning of C-2 (General Commercial), which is the most intense zoning district allowed by the proposed GC (General Commercial) General Plan designation. The most intense uses allowed by the C-2 (General Commercial) district are not compatible with the adjacent P-R (Professional Office and Parking) and C-1 (Limited Commercial) zoning districts, and are currently limited by the existing SC (Service Commercial) General Plan designation.

### **In regard to “3”:**

Site access is adequately provided primarily by Charleston Boulevard, classified as a 100-foot wide Primary Arterial by the Master Plan Streets and Highways. Secondary access is also provided off of Vista Drive, a 60-foot wide Collector Street, which primarily serves the neighborhood residents.

### **In regard to “4”:**

There are no other plans or policies that apply to the subject site.

**PLANNING COMMISSION ACTION**

There was one speaker in favor of this project at the Planning Commission Meeting.
